PROFILE

I am a responsible and hardworking individual, currently pursuing a B.Tech in Computer Engineering. I am eager to start my professional career in the field of Web Development or Software Engineering. With a strong commitment to learning and growth, I aim to contribute effectively to real-world projects through dedication and teamwork..

TECHNICAL SKILLS

Html | Css | Java | Php | React | UI-UX Design

PROJECTS

Training And Placement Cell System | Php

Developed in the 6th semester of my Diploma at Government Polytechnic for Girls, Surat. The system helps manage placements by organizing recruitment drives and allowing companies to recruit students efficiently.

Online Shoes Store | Javascript, Html, Css

This is a Nike-themed e-commerce webpage showcasing different shoe collections like Air Force, Jordan, and Blazer. It includes features like product sliders, product details, a payment section, gallery, and a footer with useful links and subscription options.

Portfolio Website | Html, CSS, Javascript

This is a personal portfolio web app showcasing my skills, experience, and education using a clean and responsive design. It includes interactive sections like contact, resume tabs, and skill cards with a modern UI.

LL(1) Parser Generator | python

This project is a grammar analysis tool that supports automatic grammar validation and computation of FIRST and FOLLOW sets. It detects LL(1) conflicts, left recursion, and handles epsilon (ϵ) productions efficiently. The output includes a neatly formatted parsing table for better readability and analysis.

Cyber Security project | Javascript, Html, CSS

This JavaScript code manages secure notes with encryption and session timeout. It uses AES-GCM encryption based on an access code and allows saving notes as encrypted or plain text files. The session auto-expires after inactivity and shows status messages accordingly.

EXPERIENCE

V THINK SOLUTION

Feb 2024 – June 2024

My four-month internship at V Think Solution as a Web Development Intern was a transformative experience that allowed me to apply my theoretical knowledge in a real-world setting. I gained several learning's such as Coding, Designing in the development.

DEVOTEE INFOTECH

Aug 2024 – March 2025

My six-month internship at Devotee Infotech Pvt. Ltd. as a ReactJs Intern. During my internship, I showed a strong interest in learning and actively contributed to the task I was assigned. I stayed dedicated to my work and performed well, especially in understanding and working with React.js and related technologies.

EDUCATION

BACHELOR'S DEGREE | B. Tech Computer Engineering | Uka Tarsadia University(running)

2023 – 2026

DIPLOMA'S DEGREE | Computer Enginerring | Government Polytechnic for Girls, surat

2020 – 2023

INTERESTS

Web Designing | Participating in Hackathons | Ui/Ux Exploration | App Designing
